A Model Farm.

A writer gives the following as his method of managing his 100-nere farm: "My farm contains about one hundred acres of farming land, most of which is limestone soil, the balance sandy loam. I have it fenced in four equal tracts, nearly as possible. For convenience, at the corner where they all join I have a good well arranged to furnish stock wator for each field. I manage to keep fifty acres in cultivation, lifty in clover, each year, as follows: Twenty-five in corn twenty-five in wheat. When the corn is cut off I seed this field to wheat and the people of Holt County, the street, and the "dog thief" was soon following spring to clover. I aim to take Mo. Our sales show a being pursued by half a dozen police a crop of corn, then a crop of wheat, then large increase over pre- and hundreds of boys, besides the clerks. back to clover in two years, and I find this as long as clover should stand to be profitable. By this method I manage to keep the land in a high state of cultivation. It is our emble. keep the land in a high state of cultiva-tion without the use of commercial fer-stitution. It is our ambi-Several shop men complained that they

much faster and is ready to haul out succeeded our fine store sooner. This manure is spread in the and increasing sales testify. poorest places when I have leisure and it is good harling. By doing this I keep nearly everything on the farm except the surplus wheat, which I market as soon as thrashed, while it is in the sacks. This saves a large per cent on shrinkage, besides extra hauling, and you have the use of your money. Any field I have will bring a good crop. I always have clover sol to put in corn that has lain two years, and it takes no longer and is two years, and it takes no longer and is not so much expense to farm good land as it is poor land. The pay is surer, be-

gard to age and without passing an ex ce sheets amination, the only condition being that We can save he shall be able bodied enough at the time of his application to perform his regular duties.
